Dynamics of Atmospheres and Oceans, 13 (1989) 517–518
Elsevier Science Publishers B.V., Amsterdam – Printed in The Netherlands

CONTENTS

Volume 13, 1989

Special Issue: Laboratory Experiments in Geophysical Fluid Dynamics: Current Progress and New Horizons
Guest Editor: P.G. Baines

Contents, special issue vii
Preface viii

Research Papers
Application of a laboratory model to the interpretation of satellite and field observations of coastal upwelling
S. Narimousa and T. Maxworthy (Los Angeles, CA, U.S.A.) 1
A laboratory study of the lift forces on a moving solid obstacle in a rotating fluid
G. Chabert D'Hieres, H. Didelle (St. Martin d'Heres, France) and P.A. Davis (Dundee, U.K.) 47
A laboratory model of a convectively driven ocean
S.A. Condie (Canberra, A.C.T., Australia) 77
Turbulent thermal convection in rotating and stratified fluids
H.J.S. Fernando (Tempe, AZ, U.S.A.), D.L. Boyer and R. Chen (Laramie, WY, U.S.A.) 95
Baroclinic wave generation by barotropic waves passing over a shelf
D.P. Renouard and X. Zhang (Saint-Martin d'Heres, France) 123
Some aspects of thermally induced circulation in a rotating basin
M. Takematsu and T. Kita (Kasuga, Japan) 149
Announcement 165
Guide for Authors 167

Special Issue: Data Assimilation
Guest Editors: D.B. Haidvogel and A.R. Robinson

Contents, special issue iii
Preface iv

Research Papers
Meteorological data assimilation for oceanographers. Part I: description and theoretical framework
M. Ghil (Los Angeles, CA, U.S.A.) 171
The Kalman smoother for a linear quasi-geostrophic model of ocean circulation
A.F. Bennett (Corvallis, OR, U.S.A.) and W.P. Budgell (Sidney, B.C., Canada) 219
Ocean modelling studies in support of altimetry
P. Berry and J. Marshall (London, Gt. Britain) 269
Data assimilation and dynamical interpolation in gulfcast experiments
A.R. Robinson, M.A. Spall, L.J. Walstad and W.G. Leslie (Cambridge, MA, U.S.A.) 301

Direct assimilation of altimetric differences using the Kalman filter
R.N. Miller (Corvallis, OR, U.S.A.) 317
Assimilation of Lagrangian data into a numerical model
E.F. Carter (Narragansett, RI, U.S.A.) 335
Initialization and data assimilation experiments with a primitive equation model
P. Malanotte-Rizzoli, R.E. Young (Cambridge, MA, U.S.A.) and D.B. Haidvogel (Baltimore, MD, U.S.A.) 349
Data assimilation into a numerical equatorial ocean model. I. The model and the assimilation algorithm
R.B. Long and W.C. Thacker (Miami, FL, U.S.A.) 379
Data assimilation into a numerical equatorial ocean model. II. Assimilation experiments
R.B. Long and W.C. Thacker (Miami, FL, U.S.A.) 413
The assimilation of XBT data into a layer model of the tropical Pacific Ocean
A.M. Moore and D.L.T. Anderson (Oxford, Gt. Britain) 441
Operational hindcasting of the tropical Pacific
A. Leetmaa and M. Ji (Washington, DC, U.S.A.) 465
Application of multi-variate statistical objective analysis to the circulation in the tropical Atlantic Ocean
J.A. Carton and E.C. Hackert (College Park, MD, U.S.A.) 491

Contents of Volume 13 517
